Hi Dave,

Thanks for confirming that there have been no additional updates on your end. Did the developer provide you a copy of the communication – otherwise I can follow up with them directly for a copy.

Thanks!

Renee,

Nothing new to report with the exception that we were notified a couple of weeks ago The Sigma Group was hired to work on behalf of the developer, replacing Key Engineering. I see no reason to not provide them the document.

Dave

Hi David,

I received the message below yesterday afternoon. The last I saw about the Barclay project was that the City of Milwaukee had again denied Key Engineering's clean up plan. I just wanted to follow up with the City before responding to see if there have been any updated submittals, discussions, or decisions on your end?

Thanks!

Good Afternoon,

The Sigma Group is now helping with the properties at 300 South Barclay and 139 E Oregon Street in Milwaukee, Wisconsin. Key Engineering was previously helping with the site. We are looking for a report that was submitted by Toni Schoen of Key Engineering on June 22, 2018. The report is the Sampling and Analysis Plan for PCBs. If you have a copy of the report, could you please send me over a copy?

Thank you!

Chelsea Ames
